Dear Mr. Tsatsanis:

A complete copy of the above-identified patent application, including the specification, claims and drawings, along with the first preliminary amendment, as filed, are enclosed for your reference.

The enclosures include the application as filed based on the PCT application and the preliminary amendment. For your convenience, we are providing an "application as amended", in which we have combined the application as filed with the amendments, replacing the original pages and claims of the PCT application with the new pages and claims from the preliminary amendment. This "application as amended" contains the subject matter to which the Declaration relates that you are being asked to sign.

A Declaration and an Assignment are enclosed. After reviewing the enclosed copies of the application papers, please execute these and return them to us for filing in this application. If we do not receive the signed Declaration from you within 30 days of the date of this letter, we would proceed with this application in the absence of your signature under 37 C.F.R. §1.47, and we will file a petition as provided by that rule when an inventor refuses to sign a Declaration. But we do not believe that will be necessary, as we trust you will find the application and related papers that are enclosed acceptable and will return the signed Declaration and Assignment. If you have any comments, we will consider them.
